

Valentina is on her own now as Valentin, her husband died in the March snows. She misses him, but Luda visits her regularly to keep her spirits up.

Changes in his work position meant Nicolai, our great friend and co-founder of the White Flower charity in Belarus, was able to join us for some of our travels and we value his insight and wisdom. We look forward to working together more closely in the future.

Lisa has PKU and relies on support

Lisa and her mum, Natasha, proudly showed us their new apartment when we delivered the generous quantity of donated products from Firstplay Dietary Foods and Gluten Free Foods.

Nina, his wife, has also become part of our volunteer team in Belarus which now includes Luda, Tamara, Pastor Vadim, Dima, Alena, Katya, Nastya, Oleg and the two Tatanas. Our team in Belarus is growing which is encouraging to us all. They are doing a great job, as are all our charity volunteers in the U.K. Everyone is needed.

Alexandra is back in the dormitory for six people and the staff tell us she is once again the "boss" in this room

The team are very encouraged by what they see. The people in Belarus are very resourceful and support each other without all the resources we have in the U.K.

A new project develops nature trails for the blind. Unfortunately, the trails are not dry yet after the winter snows, so we met indoors for a chat.

In Belarus, new people in need are waiting to join our support scheme. We have many U.K. sponsors already and a big thank you goes to them. Even a postcard sent with love is received with great joy in Belarus. We would love to see the scheme expanded and grow.

9 year old Anfisa tells us English is her favourite lesson. She is a great help to her mother in caring for her severely disabled older sister.

The Tuning Fork Deaf Society, led by Dr. Natasha, do a great job in supporting deaf people and their families. It was lovely to meet some of them.

*A big thank you to all our supporters with love from Carol, Alan, Janet, Brenda, and our new trustee Joan*
